FACILITY AND EQUIPMENT MECHANIC I

JOB SUMMARY

Under the supervision of the Maintenance Administration Supervisor and Maintenance Supervisors, this position performs a variety of preventive maintenance and repair tasks to GCTD facilities and equipment. These tasks include maintenance, problem diagnosis, and repairs to building and office facilities, machinery and equipment. Equipment includes fuel systems, CNG fuel station, facilities electrical and plumbing, air conditioners and heaters (HVAC), bus wash, hydraulic lifts and garage equipment.

ESSENTIAL FUNCTIONS

The Facility and Equipment Mechanic I has the responsibility to:

- Perform scheduled preventive maintenance on equipment, facilities, and grounds.
- Perform electrical repairs to GCTD buildings, fixtures, and equipment. Repairs systems including air conditioners, boilers, compressors, hydraulics, and miscellaneous motors and pumps.
- Perform routine maintenance and repairs such as repairing leaks and unplugging drains and fixtures, replacing valves, filters and installing fixtures such as sinks and water heaters.
- Performs routine maintenance and repairs of electrical apparatus and distribution systems. This including panels, circuits, switches, solenoids, control boards, motors, generators, lighting, and three-phase industrial systems up to 480 volts.
- Perform routine preventive maintenance and repairs to compressed natural gas fueling station and related equipment.
- Perform routine preventative maintenance and repairs to bus wash, bus vacuum and related vehicle cleaning equipment.
- Perform maintenance on GCTD vehicles, including minor service, minor repair, and emergency road calls.

OTHER JOB FUNCTIONS

- Document repairs and inspection tasks using maintenance software and daily log entries.
- Remove and store hazardous waste products.
- Perform basic carpentry and repairs to doors, walls, furniture and equipment.
- Operate GCTD vehicles including buses, sedans, trucks, vans and forklifts.
- May serve as lead person for Building Maintenance Worker.
- Perform other duties as assigned.
- May be assigned vacation coverage and temporary relief duties as required.

MINIMUM QUALIFICATIONS

Graduation from high school or GED equivalent. Any combination of education and experience equivalent to one year of full-time training or education in Industrial Technology, Electrical Maintenance, or similar program at a recognized trade school, organization or apprenticeship or two years related experience performing mechanical and electrical facilities construction and/or maintenance, troubleshooting and repair. Minimum age of 21. Must have a valid and current driver's license, one that is not currently suspended or restricted. No "at fault" accidents and good driving record.

and

Knowledge of:

- Basic electrical.
- Basic carpentry.
- Basic plumbing, valves and fittings.
- Equipment and safety procedure utilized in facility and equipment, maintenance and repair.
- Basic tools and chemicals used in grounds keeping, facility and equipment repair.
- Low and high voltage systems up to 480 VAC.
- Facilities maintenance repair and related construction.
- OSHA safe work practices.
- Computer software skills including word processing, spreadsheets, and database applications such as MS Office programs including Outlook, Word, Excel, etc.
- Time management principles.

and

Ability to:

- Safely and effectively use a variety of cleaning agents and chemicals.
- Learn on the job, relying on your knowledge and previous experience.
- Read and follow written and oral directions when performing maintenance and repairs.
- Perform clean up (possible biohazard) to transit buses and facilities.
- Tolerate routing exposure to cleaning agents, dirt, dust, vegetation and trash.
- Perform moderate physical labor.
- Lift and move objects weighting up to 60 pounds.
- Understand, speak, read and write English.

<p>This position is designated safety sensitive and is required by the Federal Transportation Administration to have a drug and alcohol test administered prior to employment and subject to random drug and alcohol testing during employment.</p>

The examination will include one or more of the following parts:

- Application review
- Oral interview

DISCLAIMER

This job description is not construed to be an exhaustive statement of duties, responsibilities, or requirements. Employees may be required to perform any other job-related instructions as requested by the supervisor, department head or general manager.

HOW TO APPLY

Applicants may obtain an application at www.gctd.org

To apply please submit a **GCTD application and H-6 DMV Print-out** by E-mail to: hr@gctd.org

**Or in person or by mail to:
GOLD COAST TRANSIT DISTRICT
301 East Third Street, Oxnard, CA 93030**

SELECTION PROCESS:

All applications will be evaluated on their related work experience and education qualifications. GCTD will invite the most qualified candidates for an exam and oral interview. All applications must be filled out completely and must clearly show that the minimum requirements are met. All statements made on the application are subject to investigation and verification. Invalid applications are subject to disqualification. **The GCTD applications must be fully completed. Any questions unanswered may cause you to be excluded from the selection process.**

PRE-EMPLOYMENT PROCESS:

The pre-employment process includes a job specific pre-employment job function analysis, a DMV K-4 print-out and a DOT drug and alcohol screening to be completed by an industrial health clinic; background and references will also be checked. All offers of employment are conditioned upon successful completion of this pre-employment process.

ABOUT GCTD

Gold Coast Transit District (GCTD) is a special purpose transit district that provides public fixed route and paratransit service in the cities of Ojai, Oxnard, Port Hueneme, Ventura and the unincorporated areas of Ventura County. With nearly 4 million passenger trips provided each year, GCTD is the largest public transportation operator in Ventura County. The fleet includes 56 buses and 24 paratransit vehicles all powered by clean natural gas supplied by an on-site CNG fueling station. In 2014 Gold Coast Transit District was named Small Agency of the Year by the California Transit Association.
