INDEPENDENT AUDITORS’ REPORT

To the City Council
of the City of Port Hueneme
Port Hueneme, California

Report on the Financial Statements

We have audited the balance sheet of the Transportation Development Act (TDA) Article 4, Section 99260(a) fund (Transportation Development Act Fund) of the City of Port Hueneme, California (City) as of June 30, 2015, and the related statement of revenues, expenditures and change in fund balance for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Transportation Development Act Fund of the City, as of June 30, 2015, and the change in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.
To the City Council
of the City of Port Hueneme
Port Hueneme, California

*Emphasis of Matters*

As discussed in Note 1, the financial statements present only the Transportation Development Act Fund of the City and do not purport to, and do not, present fairly the financial position of the City, as of June 30, 2015, the change in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

*Other Matters*

*Supplementary Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements of the Transportation Development Act Fund of the City. The Budgetary Comparison Schedule and Schedule of Project Status on pages 15 and 16, respectively, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements of the Transportation Development Act Fund of the City. This supplemental data has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

*Other Reporting Required by Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2015, on our consideration of the City’s internal control over financial reporting for the Transportation Development Act Fund, and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City’s internal control over financial reporting and compliance.

Santa Ana, California
December 31, 2015
REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditors’ Report

To the City Council
of the City of Port Hueneme
Port Hueneme, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the balance sheet of the Transportation Development Act (TDA) Article 4, Section 99260(a) fund (Transportation Development Act Fund) of the City of Port Hueneme, California (City) as of and for the year ended June 30, 2015, and the related statement of revenues, expenditures and changes in fund balance, and the related notes to the financial statements, which collectively comprises the Transportation Development Act Fund of the City, and have issued our report thereon dated December 31, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.
To the City Council of the City of Port Hueneme
Port Hueneme, California

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements of the Transportation Development Act Fund of the City are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including §6666 of Part 21 of the California Code of Regulations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards, including §6666 of Part 21 of the California Code of Regulations.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

NOTES TO THE FINANCIAL STATEMENTS
This page intentionally left blank.
Note 1 – Reporting Entity and Summary of Significant Accounting Policies

General Information

The accompanying financial statements are intended to reflect the financial position and changes in financial position for the Article 4, Section 99260(a) Transportation Development Act Fund of the City of Port Hueneme, California (City) only and are not intended to present fairly the financial position and results of operations of the City in accordance with accounting principles generally accepted in the United States of America.

Pursuant to Section 99260(a) of the California Public Utilities Code, Article 4 monies are used only for public transportation. Funding for this program is authorized by the County of Ventura and is paid to the City on behalf of the Gold Coast Transit District.

Governmental Fund Financial Statements

The accounts of the City are organized on the basis of funds. A fund is defined as an independent fiscal and accounting entity wherein operations of each fund are accounted for in a separate set of self-balancing accounts that record resources, related liabilities, obligations, reserves and equity segregated for the purpose of carrying out specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The City accounts for the activity of the Article 4, Section 99260(a) fund in its Transportation Development Act Fund, which is a Special Revenue Fund that is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes.

Measurement Focus and Basis of Accounting

Special Revenue Funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, revenues are available if they are collected within 60 days of the end of the fiscal period. Expenditures generally are recorded when a liability is incurred.

Revenue Recognition

Recognition of revenues arising from nonexchange transactions, which include revenues from taxes, certain grants and contributions, is based on the primary characteristic from which the revenues are received by the City. For the City, funds received under Transportation Development Act Article 4, Section 99260(a) of the Public Utilities Code possess the characteristic of a voluntary nonexchange transaction similar to a grant. Revenues under TDA Article 4, Section 99260(a) are recognized in the period when all eligibility requirements have been met.

Unavailable revenue arises when potential revenues do not meet both the measurable and availability criteria for recognition in the current period. Unavailable revenues also arise when the City receives resources before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualified expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for unavailable revenue is removed from the balance sheet and revenue is recognized.
Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Fund Balance

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the entity is bound to honor constraints on the specific purposes for which amounts in the fund can be spent. As of June 30, 2015, the fund balance for the Transportation Development Act Fund of the City is Restricted.

Restricted fund balance includes amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions enabling legislation. Restrictions may effectively be changed or lifted only with the consent of the resource providers.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in District net position during the reporting period. Actual results could differ from those estimates.

Note 2 – Cash and Investments

The City has pooled its cash and investments in order to achieve a higher return on investments while facilitating management of cash. The balance in the pool account is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing accounts and other investments for varying terms. The Transportation Development Act Fund’s cash and investments balance as of June 30, 2015 was $111,642.

The Transportation Development Act Fund’s cash is deposited in the City’s internal investment pool, which is reported at fair value. Interest income is allocated on the basis of average cash balances. Investment policies and associated risk factors applicable to the Transportation Development Act Fund are those of the City and are included in the City’s basic financial statements.

See the City’s basic financial statements for disclosures related to cash and investments including those disclosures relating to interest rate risk, credit rate risk, custodial credit risk and concentration risk.

Note 3 – Restrictions

Funds received pursuant to PUC §99260(a) may only be used for public transportation activities.

Note 4 – Contingencies

See the City’s basic financial statements for disclosures related to contingencies including those relating to various legal actions, administrative proceedings, or claims in the ordinary course of operations.

**Notes:**

**Note 1 – Budgetary Data**

The City adopts an annual budget on a basis consistent with accounting principles generally accepted in the United States of America and utilizes an encumbrance system as a management control technique to assist in controlling expenditures and enforcing revenue provisions. Under this system, the current year expenditures are charged against appropriations. Accordingly, actual revenues and expenditures can be compared with related budget amounts without any significant reconciling items.
