One of the changes being planned is the new Route 23 (Oxnard College-Ventura Road-Esplanade), which will enable a redesign of routes, primarily in south Oxnard.

Mr. Miller provided a report that contained details and information about each change that is planned, including information about service schedule and headway information, the specific changes of Routes 3, 4A/B, 8, 9, 15, 17 and bus stop consolidation for Route 1.
The route redesigns will support the goals of faster travel by offering more frequent and direct routes and reducing duplicative service on small neighborhood streets, which was a top priority in GCTD’s Short Range Transit Plan.

Mr. Miller recommended that the Board of Directors receive and file this report and provide input to staff on outreach plans to reach communities to educate and inform the public about planned changes for January 2020.
